Applications

Operations ⚒

A suite of operations tools for property staff, engineers and vendors, who seek to improve workflow processes and property performance with the application of preventative maintenance, service request, inspections and staff management technology.

Includes…

Service Request / Work Order   **Preventative Maintenance**
Reporting Engine   **Mobile Task Manager**
Inspections

Communications 📢

A powerful suite of tools that offer extensive communications capabilities. Integrated across desktop and mobile devices, these tools facilitate comprehensive contact management, notifications, as well as calendar information and seamless proactive initiative engagement.

Communications (NEW)   **Electronic Tenant® Portal**   **Insight**
Contact Management   **Directory**

Risk Management ☂

Applications that impact property preparedness and overall risk profile by lowering liability exposure and related expenses, while eliminating a substantial administrative burden.

Certificate of Insurance   **Video Training & Life Safety**

Reservations 📌

Easy-to-use online reservations application that helps managers oversee multiple property amenities, and allows tenants to submit reservations and check status of each resource. No more double booking!

Leasing & Marketing 🏢

Integrated applications for the brokerage community allowing for timely and professional presentation of property amenities, activity and availability.

Electronic Leasing Portal   **Leasing / Space Availability**

Energy ⚡

Powerful, yet easy-to-use, energy analysis and management applications that not only assesses consumption, but provides automated energy cost savings opportunities powered by MACH Energy.

Actionable Data Initiatives   **Cost Reduction**   **Tenant Billing**
Energy Star Integration   **Tenant Billing**   **Budget Tracking**
